**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-2, 4-9 and 19-23, drawn to a candle, classified in class 44, subclasses 247,519; class 431, subclasses 288-289; class D26, subclass 96; class 424, subclass 40; class 122, subclass 366; class 222, subclass 187 and class 239, subclasses 44 and 145.
  - II. Claims 14-18, drawn to method of displaying and selling candles, classified in class 434, subclass 40; class D14, subclass 902; class 40, subclass 538; class 229, subclass 87.01; class 312, subclass 140.1 and class D20.
2. Inventions 1-2, 4-9, 19-23 and 14-18 are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another and materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatuses as claimed can be used to perform process other than displaying and selling candles as required by the method claims; for example for deodorizing air.
3. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require different fields of search (see MPEP 808.02), restriction for examination purposes as indicated is proper.
